

COMPONENTS AND SERVICE

A Seven-Leel World View

„For all to spring from nothing a oneness suffices“ • (1) The binary code • (2) A scientific study • (3) A science • (4) The system of science • (5) The history course • (6) The world spirit • (7) The universe • Circular conclusion of the levels • Introduction: Structure, logic, insight and perception • Belief and the metaphor of the spectral lines

Concept of as basic income

Assumptions • Demography • Unemployment • Worst Case • Life cycle • Wage spiral • Labour demand • Labour market • Inequality • System of goals with conflicts of goals • Derivation of measures • Calculation of the basic income • Sustainability by coupling to the GNP • Overcoming of the economic growth compulsion • Democratization of the economy

Multimedia knowledge transfer

Lectures about the basic income • PowerPoint presentations about economic policy • „The Voyage through the Universe“ as video installation as infinite loop • Keynote speaker • Exhibitions with interactive use • Populism exemplified by the five degrees of complexity • three dimensional perspective by internet links

Binary code consisting of zero and one: 1st level of the Seven-Level World View

Further Education:

Studies of Japanese Business and Society in Tokio • Diploma in European Business Administration • Practical training in London • Post studies in philosophy

Jobs:

Employments as controller • Projects with focus on business development as well as reporting and finance • Scientist of reason based on self studies

Actions:

Presentation in the Galerie Zeitzone • Exhibition in the k-salon • Lecture in the LaLuz in the Osramhöfe • Renting a billboard at the Potsdamer Platz in Berlin

Material:

Art prints • Foam board to show 235 file cards • eBooks • Video installation as infinite loop • Audio books • Website • PowerPoint presentations

Attitude:

Application of the economic rules as a professional controller • critical reflection of the social and (inter)national rules as an interested scientist of reason

THE WORLD SPIRIT

A Seven-Level World View & Basic Income

Ralf Einert
Scientist of Reason

ALL FROM NOTHING AND LIGHT

REASON

Our imaginations of the world and our consciousness determine mainly the criteria from which the economic rules are deduced from. But the globalization of the world economy reveals the failure of these rules for most people. Despite the inconsistency of the so called economics they are assumed to be a science. However, they are largely based on politically motivated beliefs and interests.

Superstition has to be replaced by reason. Skeptical doubts should not only serve philosophers for intellectual pleasure. Instead alleged economic-political laws and regulations should be subject to critical scrutiny. What is believed as true leads to not sustainable and/or wrong solutions - the exchange of cause and effect is fatal.

First of all, based on nothing and light, a model of the universe is developed. This gives the evidence for the sentence: Theory and practice as well as mind and matter are related to each other. The 3rd level of the Seven-Level World View consists of a science. An economic system based on logic and reason is used as an example:

Therefore logical thinking is the fundament of deriving a system of goals including conflicting goals to set up measures for practical actions - with the vision of democratizing the decision about the economic growth level.

The work „THE WORLD SPIRIT“ is a science of reason based on self studies.

Economic system: 3rd level of the world view

A SEVEN-LEVEL WORLD VIEW

from the general ...

The Seven-Level World View is an interpretation of the verse: „For all to derive from nothing a oneness suffices.“ by Gottfried Wilhelm Leibniz. At the same time, knowledge is intended to serve as reparation for the expulsion from paradise in order to raise the potential for a better world.

Experience how (1) the binary code leads to (2) scientific studies, how these lead to (3) a science, how this leads to (4) the system of science, how this leads to (5) the history course, how this leads to (6) the world spirit, and how this leads to (7) the universe, which is based on (1) nothing and light.

The Bible saying "It was light" symbolizes the one to be developed out of nothing, from which everything can be derived.

Filter function of reason: The theses as summary

BASIC INCOME

... to the particularc

The „Studies of Economic Change“ give the evidence for the banal and absurd sounding theses that the working hours have to be reduced and the wages have to be increased while we have to be socially secure.

This is supported by a basic income in the amount of 60% of the average wage combined with an income tax of 40% for all for everything plus a social contribution between 0 and 25% depending on the working hours and the employment rate.

Declining growth rates due to the law of diminishing marginal utility meet with increasing productivity rates due to the idea of the evolution theory. The alternatives are maximum welfare in a leisure-oriented society or full employment and poverty.
